Sacramento, CA, 95811

Dear Sir or Madam:

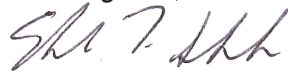

The attached documents are submitted to comply with the regulations effective on January 1, 2006 - for AB 1045 (Chapter 532, Statutes of 2005) amendment of the Payers' Bill of Rights established by AB 1627 (Chapter 582, Statutes of 2003).

The first two worksheets contain a copy of St. Jude Medical Center's active chargemaster. The first is a listing of non-pharmacy services and supplies with patient charges and the second, a listing of pharmaceuticals with patient charges, taking into account the mark-up percentage and the highest logical charge a patient might receive. Pricing for these documents was effective on June 1, 2012. For pharmacy charges with no volume every effort was made to establish what the charge would be if used, however some could not be found. These are identified as CENV. Sheet three is a list of commonly charged services with the outpatient charge as of June 1, 2012. As recommended, we have utilized the format developed by OSHPD.

The remaining sheets provide the Medical Center's active chargemaster on June 1, 2011 and June 1, 2012 with utilization and pricing from June 2011 through May, 2012. The change in gross revenue for this 12 month time period is 3.47%.

If you have any questions with these documents, please send them to katie.moore@stjoe.org or contact Katie Moore, CDM Specialist at 714 347-7972.

Best Regards,

Ed Salvador
